

Accelerated Master's Program - Acknowledgement Checklist

Name: _____

Student ID: _____

Current catalog: ___ day ___ continuing education

Undergraduate Major/Program: _____

Graduate Major/Program: _____

- A grade of C or better in undergraduate equivalents are required for graduate foundations or prerequisites of the program as outlined in the Accelerated Master's admissions requirements in the [catalog](#).
- The number of graduate-level courses I am permitted to enroll in as an undergraduate student is dependent upon my chosen graduate program, my senior year enrollment, expected date of graduation and graduate course schedule. Furthermore, I understand that I may not register for a graduate course that extends beyond completion of my undergraduate expected graduation date.
- As a student in the accelerated master's program, I understand that I may enroll in one graduate-level course during each graduate semester each term of my senior year and complete up to three graduate courses (with no additional charge). I understand that I may opt to enroll in one graduate course in the summer preceding my senior year.
- I understand that I must enroll in at least 12.00 undergraduate credits if I need to maintain full time status as graduate course enrollment is not calculated into my undergraduate full time status.
- I understand that I am able to register for a maximum of 21.00 undergraduate-level credits while also enrolled in a graduate course.
- I understand to be in good academic standing for the Accelerated Master's Program I need a minimum GPA of 3.00 in graduate-level coursework. Failure to achieve/maintain a 3.00 graduate-level GPA will result in academic probation. Students are allowed two terms on academic probation. However, if my graduate-level GPA is below a 2.0, I will be dismissed from the program and will not be eligible to apply to any other graduate program.
- I understand that I must notify my assigned academic counselor if my Accelerated Master's Program status changes at any time while completing my undergraduate degree program.
- I understand that graduate-level courses taken while I am an undergraduate student will satisfy free electives in the order in which they are taken (if required) in my undergraduate program and also count towards both my undergraduate and graduate GPA. Some programs may allow graduate-level courses to count towards other undergraduate requirements. Your degree audit will note this if applicable.
 - OPT OUT: I choose to not have my graduate-level courses satisfy my undergraduate program requirements. I intend to satisfy my undergraduate requirements with undergraduate coursework. Please note that once this option has been chosen, graduate-level courses will permanently fall in the unused area of my undergraduate degree audit.
- Any graduate level course taken while enrolled as a graduate student will be assessed the full graduate tuition rate. This includes any repeated course that may have initially been taken as an undergraduate student.
- I understand that in order to officially be enrolled in a graduate program, I must successfully complete all undergraduate graduation degree requirements.

Student Signature: _____ Date: _____

To be completed by SAS:

Anticipated Start Term to take first course in the Accelerated Master's Program: _____

Anticipated Undergraduate Graduation Date: _____ Credits Completed to Date: _____

Academic Advisor/Counselor: _____ Date: _____

SGASADD Attribute of NOGR added if student selected OPT OUT
